In the last five years, the peak fall enrollment occurred in 2007 at 2,086 and the low fall enrollment occurred in 2011 at 1,748. Close scrutiny of past enrollment trends indicated that any growth in the last five year period occurred from the addition of graduate programs and accelerated nursing sites. As we phased out accelerated nursing sites and did not offer additional graduate programs, the College intensified its recruiting efforts and retention efforts in order to address the "5 year decline" and it also converted its major academic program from an associate degree to a baccalaureate degree.
- **Budget** – The College's operating budget for Fiscal Year 2012 is \$21,860,179. In addition, the College was awarded Title III Part A Strengthening Institutions approximately \$400,000 a year for five years starting in October 2011.
- **Physical Plant** – The College occupied ten buildings near the intersection of Essen Lane and Perkins Road, near Our Lady of the Lake Regional Medical Center in South Baton Rouge. Additionally, the accelerated nursing program was offered at one location in the Greater New Orleans area until November 2012.
